- **How Do I? – with Laptops, Computers and Apple Mac – 13th & 27th February**
Help with your laptop or computer. From beginners to just needing to update your knowledge. Come along to get specific help with your problem or just expand your knowledge. Please discuss your help requests with the tutor when booking.
- **Smartphones and Tablets – 13th, 20th & 27th (Note the different times above)**
Whether you want to know the basics or something more advanced bring along your smartphone or tablet, either Android or Apple, with your queries and problems. If you want to try new apps, please discuss your requests with the tutor when booking.
- **New Members – 13th February 10am**
Come along to find out what SeniorNet is all about and meet some of our tutors. This session is free and you are under no obligation to join (but we hope you will 😊). Take the opportunity to talk to us about what you would like to know more about, we would love to be able to help.
- **Photobooks – 20th February 10am**
Do you want to do something different with your photos? Why not create a photobook of your holiday, childhood memories, a photo record of someone's life to give them as a gift. If you have been to this session before maybe you would like to come along to see all the new features. If you haven't been before then come along to see what can be done. Bring along your photos on your laptop, tablet or flash drive.

Hamilton SeniorNet Course Schedule – February 2024

- **Genealogy, With Legacy** – 20th February 1pm
Legacy Family Tree is genealogy software for Windows that assists family historians in tracking, organizing, printing, and sharing family history.
- **Useful Apps** – 27th February 10am
There are thousands of apps out there, far too many for us to cover but we can show you some of the ones that we find most useful such as Genius Scan – to easily scan documents etc; Gaspy – the nearest or cheapest petrol station; Find my Car – never lose your car in the carpark again; Find my Phone; Stocard – store all your loyalty cards on your phone instead of your wallet; Seeing AI (Apple) or Lookout (Android) – will read a document and many more. If you have some favourites then please let us know.

Do you have questions on a subject that we haven't offered as a class recently?
Or is there a new class you would like us to add?

If so, please let us know either by phoning one of the listed tutors or by replying to this email.
